## About Dorse

We aren't just a parts supplier. Dorse is an HVAC manufacturer representative and a wholesale distribution company servicing mechanical engineers, contractors, and building owners. With a complete understanding of the construction life cycle, we've built specialized teams to deliver exactly what our customers need at exactly the right time. From HVAC project estimating at any stage through ordering to parts tracking and delivery, our pride in a job well done is priority number one.

**50**

YEARS ESTABLISHED

**800+**

PROJECTS COMPLETED

**300**

YEARS EXPERIENCE

## Our Approach

As an HVAC distributor for the Pacific Northwest, we approach each project by learning as much as we can about our customers' needs. Then, we apply decades of HVAC supplier experience, lean on our specialized teams for expertise and create the right solution. Service doesn't stop at the sale. Shipment tracking, follow-up and jobsite delivery are standard procedures in a job well done by Dorse.

## Why Dorse?

**Quality of work is always more important than the quantity of parts shipped.**

Whether you purchase a \$50 part or a \$50,000 ventilation system, our entire team is at your disposal to ensure you have what you need, when you need it.

**We work with world-class ventilation manufacturer partners.**

From a single HVAC part order to the design and delivery of ventilation systems for an entire facility, every part we sell and project we take on includes a dedication to getting the right products from the right source.

**Our HVAC industry expertise is decades in the making.**

For over 50 years, Dorse has leveraged our expertise as an HVAC distributor to create processes and systems that keep our customers and their projects on schedule and budget.

## Client Testimonials

"Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sapien, dignissim tristique tellus sed faucibus nullam."

## Industry Climate

A strong HVAC distributor partner does more than just ship parts. Today, the complexity of the construction industry requires exceptional knowledge of the specific needs, project requirements, engineering specifications and more. Our team members bring vital experience that can help make even the most challenging designs, repairs or installations possible. You can count on us to deliver creative solutions, and provide what you need for your commercial HVAC project, when you need it.
