Pico Logic Solutions

Starting small allows us to design real-world, tailored M365 solutions and systems using Teams, SharePoint, and more that quickly deliver value for your business. Our technology and intranet solutions are built people-first so individuals can focus on their jobs vs. working at their job. From there, we are able to adapt and evolve these solutions to smartly scale with your future of work so your business can grow.

People First

Being extremely customer- and end-user centric helps us improve efficiency, productivity, and team collaboration.

Our Approach

Future of Work

We take out-of-the-box features and deep business analysis to translate business needs into solutions that make sense now and in the future.

Solutions & Services

Long-Term Relationships

We value people – the people we work with, the customers we serve, and the partners we collaborate with – and work to build ongoing relationships.

About Pico Logic

Pico Logic is a technology and services consulting firm serving customers since 2007. We design and deploy custom intranet solutions, collaboration platforms, and more to companies of all sizes across a diverse range of industries using SharePoint, Teams, and other M365 tools and technologies.

Helping people through technology is a core belief for every one of our team members. We help bring positive change and efficiency to businesses, their teams and the individual contributor.

At Pico Logic, we lead with our values. They guide our work and serve as a stronger compass than rigid process or methodology.

These values lead us to make the following choices:

ADAPTABILITY
